Mr. Brian Lamb;

I was unable to catch your address on TV screen, because it goes on and off so fast. I note other address are left on quite awhile.

I'm sending to Mr. Kondracke and asking him to forward to you.

I live in TX, have a 16" Dish so I get your programs good. I have tried to find out how other people who do not have a dish can get your & other shows.

I have called National and local Cable Co's. They know nothing. if you want to buy a service then they have all the answers.

I called ABC, CBS, & NBC and they know nothing.

It seems to be a secret for anyone other than dish owners. I belong to Satellite TV Guide & TV Guide and they have no info.

you have a good show

The public TV station here
say they only show very
unusual programs, like Jap
Boone hearings.

you say you are serviced
by American Public Television
Cos. who know nothing.

I would like to get your show
in San Diego N.C. without
getting in a dish.

You say, I believe, that you
serve 20000 homes - there
is only 4000 dishes (I believe)
seems like something is wrong.
I was going to call you
but it is so hard to get there.

Please respond to my letter
and maybe even give some
good info on your TV how
people can get your shows.
Even if it is public funds
thing we are entitled to
some clear info.
You have a good show, but
everyone outside of big cities
never heard of it. Sincerely,

Phoenix, Arizona 85016
