

An 82 year aged woman with four  
grand children who has paid into Blue  
Cross since its inception - I think 1937  
and now Blue Shield - wonderful  
coverage.

Senior Citizens do their part in  
supporting Research for Cancer, Polio,  
Easter Seals, Heart, Red Cross, Viet Vets  
Disabled, Blind etc. Small amounts -  
yes but they add up.

Over please

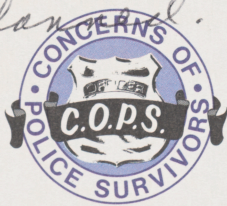

CSPAN

Booknotes has to be one of the best -  
if not the best program on the air!  
Could someone do some further research  
on the recent article in the Washington  
Post about New Hampshire cheating the  
US Govt on Medicaid payments. Of  
course other states are involved in the  
same practice. Talk about pork barrel  
health programs. Here is money diverted  
to use other than health! What  
kind of a person writes such a note.

002594 APR 12 93

*I would not like to miss the program - could I be notified if one is planned.*
