Dear Terry and Friends,

The policies of Conservative-Spin and its propaganda dictator, Lamb are unbelievable.

It is fine for callers to attack liberals and democrats as crooks, criminals, thieves, fags or communists. This is how your policies "favor incumbency" in Congress - quite unlike the fawning PR protection given the Bushes' corporate ruler class and their hitmen now in control in Washington.

But let one caller criticize the CIA or FBI - and Her Lamb

Jerks up in his seat as if hit by an electric shock and bristles with hostility as he shuts up his critic and tells him:

"You can't say that over my network!"

So much for freedom of speech on C-Spin.

It has long been obvious that Bully Boy Brian is a CIA/FBI police type and that is why he takes such offense at an otherwise un-threatening attack. In a police state the ultimate crime is to criticize, attack or unmask the National Gestapo.

It is also obvious that C-Span has been established as another

opinion creating tool and entity
to show up, propagate for and
protect - the corporate/colonialist
neo-fascist CIA police
plantation empire -

that vitally needs a
Pentagonist garrison state and
Aircraft carrier Big Stick
invader force.

When will you "tell" on your
"conservative" friends ??

Sincerely
