Mr. Lamb

C. Span went to an all time low on 6/2/97 when you had Tyrell from the American Spectator on in on your last call from that woman your persistent grilling of her Brian showed where your programs politics lie, 100% conservative as I always knew. To bring on Tyrell you on your program lost all credibility with the American public that man Blong's in a home, just look at his eye's, His love for America is a farce, he most likely never served in the military as most conservatives didn't they only love the dollar. I wrote him a letter once and he had his 15 year old daughter answer it he didn't have the guts, How can you respond to a 15 year old that's been brainwashed or probably fears her father as he doesn't seem to balance, I just told her. I'm a senior and I wouldn't want to ~~confront~~^{argue} with a teenager I called you on 6/2/97 when I

started to explain the defeats ^{in Eng} ~~in Eng~~
the reasons for why they were defeated
the goals of Conservatism, your Politics
seared my again as I was cut short
I'm a senior who lived through
the Conservative Politics Before Roosevelt
as they haven't changed a bit,

Enlarge the working class are give
everything to the wealthy few
I know families who have children
that graduated college and can only
find a 6 to 7 dollar an hour job
People laid off by the millions as
corporations show their greatest profits
in history, Poverty up 25% in the last
four years wages lower every year for
the last ten years in a row with less
Benefits, these profits derived by sending
our jobs to Mexico and Asia with the help
of Clinton and the Politicians in Washington
With the passing of a Bill 75% of the
American People were against Passed in
the dark of night, Night & Day. I feel
sorry for our youth of today they're doomed

That's more than I can say for you on your program

~~Don't know what to say. I hope you're happy.~~

The Polls have shown consistently that the American Public don't care about Paula Jones, Whitewater, the Balanced Budget, Yet we are Bombarded day and night with this garbage the Conservatives do this as they think it keeps the Peoples mind off the destruction of the American Working families since they have had control in Washington, it doesn't. We talk about our demise every day out here they talk about the Liberal Media is it the liberal Media that has kept the Whitewater story, the Paula Jones story, the Campaign Fraud story on the front Page on T.V. every day, What liberal Media, In the New York Area every Radio talk show is 100% Conservatives you send me a name of a Liberal on a Radio talk show in my Area. We have on Black Radio talk show host on he's a Conservative they searched the World to find him to understand my beliefs I don't believe in affirmative action, Quotas People getting preference because of color over

three genders. I believe in fairness and it isn't fairness to watch Clinton and those Corporate Bought and owned Politicians in Washington passing Bills to allow Corporate America to ship all the Nations good paying jobs out of the Nation for Corporate America to make enormous profits for the few, while there throwing the American Worker into the streets leaving the People with low paying service jobs, part time jobs, temporary jobs no benefits. As I stated on my call in "Don't Count the Part Time Workers, the Temporary Workers look up and count the People who have used up their unemployment benefits and the Nations unemployment Rate is easily 14% or more. It's a shame the American People I mean the White Majority were so fed up with the Civil Rights Movement that they gambled on the Conservative Politicians that pushed that Button in 1980 with his talk about Welfare Queens, Quotas, an Affirmative Action to get elected, Reagan and now the People suffer.
