

O.W.H. TOUR 7-8-98

I started watching your White House "Tour" last nite, but it wasn't a tour at all. Why can't you give us the tour (go) from one room to another & then go back for the detail for the people who are interested in every piece in the room. W'nt not! There are a few in each room to care about but don't bore us about with Minute detail. Three hrs was way too long!!

What happened to peace in Ireland. I haven't heard anything about what's going on over there on Wash. D.C. It seems like a big story to me. It was way too early to praise Clinton and Mitchell.

Connie is still tracking the Republican
