I am simply furious that you sat there and let that Wallach person spout the old standard Israeli propaganda line that the Palestinians have it good compared to other Arabs, in this instance, the Kuwaitis.

How can they have it good when they have gotten nothing BUT abuse and humiliation from the Jews ever since the Jews started invading Palestine in large numbers back in the 40's?

If you read NOAM CHOMSKY's "The Fateful Triangle, The United States, Israel and The Palestinians," you will get a faithful picture of the REAL yesterday's situation.

2) That The jews have gotten away with ever since The Zionists decided Palestine was going to be theirs.

Why not get NOAM CHOMSKY on your show. He'll make your hairs stand up.

The very reason Bush + Co. are in the middle east is that the news people have been partial to the jews all along. Between their hiding the truth from the U.S. taxpayers and the stranglehold of the Israeli lobby on U.S. politicians the public is greatly misinformed. The truth MUST come out and when it does Israel will go up in smoke like an orchid under a blow torch. Hussein may be an idiot but he's the direct result of Arab frustration.

3/ The real tragedy is that we
solve NOTHING. The Germans
and The Japanese seemed to
have finally learned that, why
can't WE?

When they finish the present
fiasco, The Palestinian situation
will be right there waiting for
us.

The King David Hotel massacre
helped drive out the British.
Deir Yassin scared out the Arabs.
Jewish Terrorists Menachem
Begin and Itzhak Shamir
of the Irgun and the Stern
Gang think they can get away
with murdering their horrible
deeds but they're wrong. The Arabs
will never forget or forgive. Why
SHOULD they?
