

July 18, 1996

Dear C-Span:

I am a regular viewer of C-Span and appreciate the diversity of programs.

C-Span announces "Your local cables' support makes our programs possible." Since I and other cable subscribers are supporting your programs, I encourage the continued use of the three line format.

The liberal guests are besieged with negative questions and comments by the majority of callers.

On the rare occasions when C-Span has opted to provide three lines, there has been a balance of views).

Just as C-Span attempts to select guests with opposing views, it should also take extra measures to assure that all views are heard, especially during this election year.

C-Span's reputation for impartiality
will be tarnished if the present practice
is continued.

I do not know what happened to
the prior minority male host but
appauld your hiring of the current one.
