

Dear Brian Lamb, 4/12/79

Thank you and your board for developing T.V. into something that mature, serious people can enjoy, learn from, and use as food for thought. I think y'all deserve a medal for your high standards and quality of programming.

I've learned so much about books, publishing, etc. The book fairs and sites of libraries, special collections are a joy to visit. Hurrah, also for the series

on the U.S. presidents
as well previous special
series. It's wonderful
to review history in depth a-
gain. I should truly be pleased
if you could send me a C-
Span bookmark: a reminder
of rare quality of the
broadcasting today. Sincerely,

HILTON HEAD SC 29926
