I appreciate very much the wonderful coverage that you provide on important issues.

The opportunity to tune in the hearings of the Armed Forces Committee & get the full coverage of all viewpoints is very important. This allows us to consider all diverse views without depending on the anchor person or other analyst to pick & choose the points to be made.

Having made that point - I also much appreciate hearing (& seeing)

the many forums, analyses, talks
etc giving expert opinions.

Please keep up the good
work. It offers the hope that
we'll have a more informed
citizenry - voters etc -

Thanks -

P.S. These comments are for
both C-SPAN. I and II
