

Dear C Span,

004230 DEC 14 90

Christmas card
12-17-90

Just to put these Foreign Countries straight who think the American People and their Journalists and their Congressmen are whiners criticizing our roll in the Middle East or even our presence in Vietnam - I will like to remind them "We The People of the U.S.A." are Free People - We have a Constitution and a Bill of Rights that guarantees us the Right to speak out - to be "Whiners". Our Government is "Of The People" "By The People" and "For The People" and Our President - even though that makes him Commander In Chief Commander In Chief of What? Our Military Forces - not Commander In Chief "Of The People" or Commander in Chief of Our Congress - No he is President - and the Leader of The Executive Branch who executes the Laws that Our Constitution has given to Congress To Make We have 3 branches of Government who share in Power and Our

Constitution spells out what Powers each Branch has - and for same Reason Our last two Presidents (even though on their Inauguration Day, they swore with their hand on the Bible - Took The Oath to Defend Our Constitution) - but have tried to take away the Power given to the Congress by Our Constitution - when Congress Represents all The States of the United States - That gives us the Power to be Whinner when we object to Our President going to all the members of the United ~~to~~ Nations to get their approval to take Military Action - but fail to do the same to Congress - (who is representing "We The People") and especially when Our Constitution gives Power to Declare War on any Country - what ever the reason and only Congress has that Power

I would like to remind the caller from ^{on} C. Spain Bonn Germany on November 23rd 1990 that because We have a Constitutional Government and not a Prime Minister and Parliamentary Government where One Political Party is in Power and the Prime Minister makes Laws - enforces Taxes

- That is the reason Our very Young America
voted to allow the Government be "Of The
People - By The People and For The People -
with 3 branches to share Power to run our
Country - It is this Constitutional and Bill
of Rights type of Government that give
each American Individual Citizen more freedom
and can Participate in running their own
Country - can vote down Taxes - or vote
against going to War when War was not
declared against us - Besides trying to get
this message across to the caller from
Bern Germany or any other Foreign Country
I would hope you would air my message
to Our Present Administration who is ignoring
The Oath of Defending Our Constitution - not just
the part that says our President is to be
Commander of all our Military - but the
First ^{Article} ~~Amendment~~ - Section 8 which states Only
Congress can Declare War - This Power
guaranteed by Our Constitution was given to
the Representatives - Both House and Senate - and
did not give it to the Commander in Chief -
Sincerely [redacted] Liberty was born
