C-SPAN
400 Capitol Street
Washington, D.C. 20001

Gentlemen:

I watch C-SPAN because I believe I have become a better citizen by watching your outstanding programs on T.V. Never in the world could I have had such broad information on most all government issues than by watching the different topics presented on a daily basis.

My knowledge on issues of health benefits, on the importance of the protection of the environment, on Social Security, on international commerce, and, most important, on domestic and international politics, has enriched me in a great way. This fact has changed my attitude, somewhat indifferent, to an interested one and I have become a citizen who wants to know what is going on every day in this great country of ours, and to the extent of my ability, to take part in doing something to keep this country free and to maintain the ideals of our predecessors.

For me your C-SPAN programs should never be discontinued. They certainly are a great way of educating and making better all Americans. Those who do not watch C-SPAN do not know what they are missing. Congratulations to all of you who take part in this patriotic endeavor.

Sincerely,

Santurce, Puerto Rico 00907
