Mr. Lamb,

I do not have a fax machine; I really don't have the time to wait on the phone nor can I afford long-distance phone calls other than to my family.

I have really had enough of constant bashing of our President with such hate expressed along with a great deal of ignorance. No matter what he does the same whiny, hateful people attack him on C-SPAN.

I think you enjoy this because I have watched your face when people call in.

I especially didn't

appreciate you showing the cartoon that said something like "let's win this for the zipper" Shame on the cartoonist + shame on you for showing it on C-SPAN.

I am enclosing two cartoons that you should have shown + hope that you will if we ever get back to health reform.
Shape up at C-SPAN!

If I hear draft-dodger anymore I'll give up on the American people. Probably the people calling in never served. These young men helped end that "war". Nixon's greatest sin was keeping it going $4\frac{1}{2}$ years too long. *America was grateful*
