Dear Brian:

Glad to see you back. I wondered where you were.

If possible, would you please have Judy Shelton (Hoover Institute researcher) back to discuss what Gorbachev is up to. Everything she told us about him before he was deposed turned out to be true. Remember she said it's foolish to pin all our hopes on one man, because even things may change, & he's not well liked in his own country as abroad. He's nervous enough to follow in Churchill's footsteps in Fulton, Mo. Also shocking was the photo of him looking over expensive property in Calif. to buy. If he has so much money, why doesn't he

help his own people instead of exploiting the U.S. with a 4 trillion \$ debt.

Many Happy Returns!
