Dear Ms. Hunter:

A number of political organizations + precinct judges have 'nominated' me to contact you. We have a telephone tree to get the word out when a late breaking story is missed but will be rebroadcast later the same night, or week by C-SPAN.

How do we get this ^{+ all scheduling detailed} information at will, w/o having to call long distance each time? What is the best phone # for this info, but, even better, isn't there an exact time, several times during the day + evening that you display 'live' the upcoming ^{time} schedule for that date, + even later that same week? That would be our preference.

Thank you so much,

* tell brian that there is a conservative black magazine, but i can't recall the name. i have rarely seen anybody from the american spectator, hat'll review & conservative chronicle. every time you hold up the washington post to quote headlines, hold up the washington times, the liberal press elected ~~the~~ bill clinton & i wish we could file a suit against them. i think c-span is great & so are all of your hosts.
