To Whom it may concern:

It makes me sick that C-Span had to broadcast to the nation the homosexual movement in this country. If the homosexuals, lesbians, geeks, and whatever else you want to call them, do not need a forum to speak.

It is morally wrong in what they're doing. If we were all fags, and lesbians, where in the hell would the children come from.

What's next, let's walk around this country with our privates hanging out.

I'm mad, and my children and myself will no longer watch your broadcast again. I'm also letting my friends know too.
