

you know we have a good
foreign loan program here.

Nobody can lose, except us
taxpayers. We loan material,
farm products, the defuncted
loans. ~~of~~ are picked up by us.
Are the law-makers asleep? or
don't want the change? Mean while
every ^{one} every is working for foreign
bonds to show all the cracks. holes
in our foreign borrowing laws. Do you
think we should tell the public?
get the law-makers to do something?
make a light
at the end of the tunnel. Do something!!!!!!
