

A 1972 report by a North Vietnamese general recently discovered in Moscow shows that over 700 American POWs have been held as hostages by North Vietnam since 1973. Le Dinh, an intelligence officer, gave us exactly the same number after his defection in 1978. We ignored it.

This is 14 times as many hostages as Iran held for 444 days. It has gone on for 20 years. This revelation gives increased credibility to the wealth of evidence that many of these POWs are alive today. Please help inform the public about this. Help free our men!
