Dear Staff,

During the week before Christmas you had a morning round table about the SCANDAL of BILL CLINTON which was in the LA Times AND American Spectator.

There was a woman on the show - Red Haire @ who kept bugging us "Why are we discussing this". She was saying it was not our business. Ted Kennedy she said has had the same problems & he is still in office.

1. Bill Clinton is the PRESIDENT of the USA and it is our business. He is our president His lives in our house. He has to be held to high standards for all the world.

2. Ted Kennedy is not president of USA. He is a Senator from Liberal Mass. His votes come from Mass not the USA. He can never be president of the USA due to his lifestyle.

The show really upset me
as no one corrected this
lady of her comparison of Ted
Kennedy & Bill Clinton.

We need to keep investigating this
story. There is STILL more to this.

Sincerely
