January 5, 2000

Sir -

I want to add to the many responses you have gotten on the great 41 week Presidential Series you just completed. What a great set of programs it was & so professionally done! What a great learning opportunity for not only the adults but also the many school children who watch & used your material. I got your T-shirt & the book Who's Buried in Grant's Tomb.

When will this series be repeated in 2000 so I can view the few I missed? Please repeat it & make it known on TV, public newspapers etc.

I would like to suggest another series with a similar format of historian research & discussion, viewer comments, lots of pictures & interviews. With the success of the new quarters & the ^astate symbol or artistic work on the back, have a 50 week series on the 50 states. Go in the order the quarters were offered being the order in which the states joined the Union eg Delaware, Pennsylvania etc.

Mason City, Iowa 50401

using state authorities, governors, places
of historical & public interest, facts about
agriculture, industry & education. This series
could be developed into a great geography
presentation & made available to the schools.
Funding could be gotten from the individual
states due to the increase in tourism after
this series is shown.

Thanks for reading my suggestion
& Thanks again for the Presidential series.

Sincerely,
