Washington, D.C. 20001

Dear Mr. Murphy:

THE WORLD IS STILL FLAT

500 years ago, I said to Queen Isabella, "The World is Flat". All the sailors and others said the world was round. I tried to explain to them that you sail to the edge, look over the side and see what is going on over the edge.

Was This A Lie Or A Myth?

They (the historians) carried a lie on for 500 years, educating the people in the world that I had discovered America. The people in America were descendants of the family on Noah's Ark, who separated and came to the Promised Land. I called these people Indians and the name remained with them.

Was This A Lie?

The lies are still with us. What people did not understand and still do not understand is that it was the BEGINNING of America, The Promised Land.

The following words on the Statue of Liberty plaque are truer today than they ever were. Not only for millions of immigrants and aliens coming into this country but for the Americans living in America.

GIVE ME YOUR TIRED, YOUR POOR, YOUR HUDDLED MASSES
YEARNING TO BREATHE FREE
THE WRETCHED REFUSE OF YOUR TEAMING SHORE
SEND THESE THE HOMELESS TEMPEST-TOST TO ME

The Lies Go On.

The President, Congressmen and Governors, who are running for their respective chosen offices, all sound like mocking birds, expressing what they assume America wants and needs. The politicians have had their chance to prove themselves but what have they done? They are like I was 500 years ago, still sailing toward the edge of the earth waiting to falloff. The Politicians refuse to shape it into the round world like it should be in this The United States of America, "The Promised Land".

America first must be all the elected official's priority. You cannot serve other countries unless you serve America first. You cannot cry lower taxes or raise taxes, lower interest rates or raise interest rates because you do not serve the interest of the retired or the poor. You are playing a Peter to pay Paul game. Taking from our pocket and putting it into another pocket, which only raises the cost of paper work. Sometimes you cry about the rich. Without the rich this country would still be using out-houses. They, the rich, keep the economy flowing.

American people do not care about the wars we have won or the wars we have lost, even though some were heroes. Mothers, fathers, sisters and even Rosy the Riveter pitched in to win the wars. And yet, the wars are not won and thousands of the innocent have been sacrificed while the War Lords continue to live in luxury. We must never let this great nation of ours be caught in an out-house with our flag draped around our legs. Have we forgotten what our flag stands for?

When countries call for peace, when you feel the Communists have faded into the woodwork, that is the time you need to build our military strength more powerful than ever. You can change a flag. You can change the name of a country, but you cannot change the make-up of the people. A sickle removed from the flag of a country could be waiting to cut us down. Remember that famous slogan, "We Will Bury You". The make-up is still there and the shoe still fits.

A freeze should be imposed on the money requested by other countries for two (2) years, especially Israel, who believes they are above all United Nations Laws. We have discriminated against countries when we give to one and not the other.

Our recovery is dependent on selling our products to other countries. There should be no hand-outs of money for countries to re-build their technology, their armed forces or to supply their people with a better way of life until we take care of our own. AMERICA FIRST.

The Lies Must Not Continue.

You can put the money to work re-structuring our own technology. We could put 1/2 million people to work dredging every lake, river, including the famous Mississippi River, plus repairing the roads and bridges and re-planting the mountains with trees and grass to help prevent erosion. This alone would pay for itself. It has cost billions of dollars from the damages sustained from the ravages of the floods.

Why have we spent 50 million dollars trying to eliminate Fidel Castro when he is no worse than most of the leaders in other countries that we are friendly with, for example China. Isn't it time we stopped being children and stop looking over the edge of the earth and become sociable again. Maybe the flow of the Cubans would stop coming into America if we invest the 50 million dollars wisely with Cuba.

We need to put a freeze on all foreigners coming to live in America. In the past 20 years, we allowed 100 thousand aliens to migrate into our country. These aliens have lived better than the Americans. They have never worked a day in this country and many of their SSI checks are greater than what a retired American receives. The Americans that are retired have worked all of their lives and many of their husbands and fathers served our country in the military and died in honor. The retired today are living at poverty levels. Is This Fair?

You who are running for the Presidency, do you hear what I'm trying to say? Or, are you still peeking over the edge of the flat earth. Are you still holding onto those lies that have been handed down for 500 years or are you going to consider the needs of the American people as a priority and help the American people attain their highest goals - NOT LIES.

If other countries want our military service to protect their soil, they should pay us for our military services. If they want our technology and products, they must compensate us monetarily. We cannot continue to free-load to the world until we make this world round like it should be and give The American People jobs. With jobs you pay taxes. When taxes are brought in more jobs are created. When you have money, you spend money. You buy homes, not lose homes. You buy new cars, not second hand cars. You travel and when you travel you keep the airlines and the cities operating. This is called the "Trickle Down Theory".

We must use our resources. Our promised land has underground oil that should be pumped and used for our Military and not imported from other countries.

California, Texas, New York, New Jersey and Pennsylvania should never have to fear the drought. We need desalination plants on the coast lines of these states. Our farmers need to be farmers. They, the farmers, should never have to worry about their water supply being shut-off. Our Nation was established State by State from the East, South, North and West by the farmers. California, which is the fastest growing state in the United States, could use a giant Solar Energy Plant north of California City that would cover the fast growing Antelope Valley.

More and bigger prisons and hospitals are being built throughout the United States. Something is wrong.

Within 5 years, we could eliminate gang wars, AIDS and other diseases, drugs and teen-age suicides by 70% if we start educating our children from kindergarden to high school. We should instruct the schools to teach the basic 10 Commandments as a required subject. This would be a course as reading, writing, arithmetic and spelling. We have generations that have grown up confused. Boys do not want to be boys and girls do not want to be girls, and encouraging the children on having sex with anyone and breaking every moral standard that existed in the past are O.K. today.

Mentioning the 10 Commandments as a basic subject would shake up the ACLU, NAACP or anybody else that would want to see American children grow up with morals.

Shamefully to say, this basic book should not mention where these laws came from. We will have to eliminate the Bible, The Great Supreme Father or any religious figure. Under the Constitutional Rights, the Ten Commandments are good and should be taught. I'm sure the religious figures will gladly stand on the side lines so America can be the Promised Land as it was intended to be.

The degradation of important figures in our society, who are now deceased, must be stopped.

Did anyone ever trace where Rock Hudson got his blood transfusion.

Marilyn Monroe believed in her doctor.

Elvis Presley believed in his doctor.

Marilyn Monroe and Elvis Presley were both pill-aholics. Nobody wanted them dead. The doctors killed them. These pill-doctors must be held responsible for their actions.

Marilyn Monroe would only marry the men she had an affair with. She was not promiscuous.

THE LIES LIVE ON

Lee Harvey Oswald was in Russia when Russia hated America. Lee Harvey Oswald went to the book depository, climbed to the sixth floor, positioned himself at a window facing the motorcade, looped the rifle straps around his arm, put the rifle butt into his check, leaned on the boxes with Governor Connally in the scope of his rifle. Governor Connally was Oswald's target. With the movement of the car, the velocity of the bullet, the bullets angle, he, Oswald, let go several rounds. President Kennedy sitting tall in the saddle took the first couple of rounds and Governor Connally the other. Trained as a Marine, he could not have missed and history took its toll for some unstrange reasons, as did the slaying of President Lincoln.

These mystic lies should not be sold by anybody that wants to write a book, TV script or a movie for their own benefit that will create any kind of vomit to satisfy their stomach with the enjoyment that other people will slop up their vomit.

The American automobile is not the only product exported out of America. The Japanese are not buying our automobiles but they do spend millions on our movies, music, videos and other products, and let us not forget Disneyland. The American Automobile Dealers should find other ways to sell their products to other countries as well as to the American people. The fault lies in their own products.

The lies go on while America has fallen behind.

The NEA should be abolished for it does not serve the purpose of the Taxpayer. It has outlived its usefulness.

You, our elected officials, cannot come up with a Medical Program. Senator Kennedy has had a Health Program for over 15 years. The Democrats and Republicans did nothing to investigate his program or to see if it would work. Nothing works unless you try it.

500 years ago, it was the BEGINNING of America. It was not a discovery. The earth is not flat if you do not want it to be flat. In 1492, it was the BEGINNING of America and it can be again in 1992, whoever, wins the Presidency of the United States of America.
