Dear Steve,

My, didn't you get your feathers ruffled one recent Friday A.M. when a man called and told you that C-Span was a Republican station?? Amen! I wrote to C-Span in the summer and suggested changing your call letters from C SPAN to R NN - Republican National Network. Your station is just another outlet for the right wing wacos. I keep track of calls that come in and 95% are from right wing wacos, voices dripping with hatred, venomous words and conspiracy theories. I've been around since the early 1920's, I've seen alot but never anything like this Gestapo takeover of our country. I'm sure you and all the C-Span staff pat yourselves on the back every morning for your part in aiding and shetting what's going on now.

During the 92 campaign, Brian Lamb couldn't wait to get Cliff Jackson, Sheffield Nelson & Paul Greenberg, all of Ark., on air to spew

their hatred toward Bill Clinton and spread their propaganda. He didn't have these men on just once but over & over & over again. You give publicity to all these right wing wacos who write these horrible books about Clinton, published by the right wing publishing firm, business done by the right wing literary sluts such as Lucianne Haldberg and Judith Regan. You've even stooped so low as to put the low life maggot, scumbag, sonofahitch Jerry Falwell on air a number of times.

I get damned tired of hearing people say "thank God for C-Span". I pay damn dear for the "public services" C-Span advertises. It's a paying service, I just got notice my cable bill is going up 5% Jan. 1, 1999.

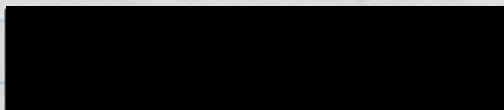

I'm hearing on the news that the intelligence is reporting that Ben Laden might attack New York or Washington D.C. - I'm all for Washington D.C., If he could just get all the journalists in that elitists town, Bob Barr, Bill McCollum, Bob Inglis, Tom DeLay, Henry Hyde, Ernest Istook, Larry Flyntman & more & the

C-SPAN & Fox News Building, I'd be pleased.

Media is running our country, media is ruining our country & media is polarizing our country. Media has run amok. I pray everyday for censorship. If the right wing gets complete control of our country, they'll turn it into a theocracy state, a police state & hopefully censorship.

Bill Clinton better not resign and give into the mean-spirited - hate mongers - low life scumbag, slimey, bastard sonof-a-bitches in the right wing, and C-SPAN - CNN & Fox News.

So Steve, you poor young, wet behind the ears whippersnapper that knows nothing about life, you do have a Republican network.
