Dear Brian

Boy - am I disappointed with C-Span. When you feature people like "Imus" - you lose me as a viewer. I've had enough of people like him through the print media and most of the talk shows on T.V. Junk.

As far as Neot Dingrich being a curator of a zoo - he is keeper of the largest zoo in the world - the United States, and what a zoo it is! I hope he can bring the animals under control.
