Dear Sir:

We as Citizens of these United States
feel your Station is becoming Obsolete.
Re this Week. There is always Guest
from "Wall Street Journal - A Very Conservative
Paper" "New York Times" "Washington Post"
"Weekly Standard", these are only a
few of the many Conservative Papers.
Your program started out being "Bipartisan"
when you had one of each Party. When
you went Single Guest, it always begin
with some one on the "Right". How can
we continue to listen when you always
have the "Right" bashing the "Left" and
every once and awhile a "Left" (Liberal) is
given this opportunity.

Here are some examples: (Friday your Guest
was from the "Right". He was talking about the
Juanita Brodeur Allegation. A Liberal Called
in and was explaining the nature of Juanita and
was cut off immediately. (Monday a Liberal Called
in was revealing about Reagan supposedly raping
some one and was cut off before she could complete
her first sentence). On Tuesday with "Steve",
again a Liberal was talking to Dorothy of the
Wall Street Journal was cut off, and Dorothy
replied I didn't hear what she said, then she

said she was cut off.

We are Concerned Citizens Hoping to Hear Both sides of an Issue. You have made that impossible because Democrat Papers & Guest are not given the opportunity to be brought forward on your station, which is supposed to be fair.

You have 3 Lines - (1) For Liberals (2) For Conservatives, Conservative Moderates, What happen to the Independence Party which you previously had. It is hardly that Liberals Call in on the Moderate Line, it is always the ideas of the Conservatives on that line.

We as Concerned Citizens of Texas would appreciate a much fairer program.

We are hoping you will please take these ideas in consideration, where we will be able to enjoy your station.

We can always turn to Fox News, MSNBC, CNN, or CNBC if we wanted to hear all Conservative Ideas.

Thanks
