

Dear C-Span,

I wonder if you know how disappointed I am with you. I believed in C-Span over the networks & CNN. I counted on you folks. I didn't ^{expect} C-Span to become the latest edition of Hard Copy. I can't believe you spent an entire week on Whitewater. If you don't respect President Clinton you could at least respect the Presidency. Who do you folks think you are? What you folks are destroying is more than President Clinton, C-Span & all the other trash shows we're forced to watch. If trash shows ~~like~~ like you can't help ~~destroy~~ destroy our rights to privacy, what ~~do~~ can common people like me do. If someone starts a story and gets press sum like you to air it what will happen to us. We can't afford lawyers like President Clinton. You trashy folks try people in the press week after week. Who is next, who is next. In this era of McCarthyism

Who will survive. America deserves
better than you. I pray that
somewhere in America a,
new class of journalists will
arise, people who report the
news without trying to be
the news. people who will
respect the laws of this
land, written and unwritten.
People who will respect the
Constitution & our right
to privacy. People who recognize
that our ~~the~~ country is at
the crossroads & we have
so many complex issues to
work on besides gossip, vicious
cruel gossip.
