Gentlemen,

I would appreciate it very much if you could send me a video tape transcript of the following telecast which you showed in the early morning of March 1, 1994:

It dealt with health care and the guest speaker was Elizabeth McCaughey, representing a Manhattan Group.

I spend most of my nights watching your highly interesting programming but for some reason I missed the opportunity of taping Ms. McCaughey's presentation. I have all reasons to believe she is the sister or cousin of a good friend of mine who lives in Quebec City but surely could not see it.

I will be pleased to defray any costs involved if any.

Thank you very kindly for your attention and keep up the good work. This health care debate you are having in the U.S. thrills me very much. Our own system in Canada, which is very "generous", is also the object of many discussions in view of its ever-growing costs, but nobody dares to go back as most people are satisfied with it.

Sincerely,

[REDACTED]
Ste. Foy, Quebec
