Dear C-Span,

I just wanted to let you know how much I enjoy your coverage of "Commons Question Time" & the recent coverage of the Japanese Diet. I truly wish you could expand the coverage of UK political systems to a full hour. I do have some interest in our political system, but I feel that your intensive coverage of the Budget deadlock only encouraged the excessive posturing by members of Congress.

Overall I enjoy your network, but feel that it could encompass more Western & Eastern coverage to further educate students of political

Science.

Lastly, what time does the coverage
of the Japanese diet routinely air?
Thanks for the educational service
you provide to the public.

Sincerely,

[Redacted Signature]
