Just like to state how wonderful C-Span is-informative, educational and all the good adjectives. I would like to see the senate in action but I believe they have ruled most of it out.

There is one thing that gets to me, and Mrs, and that is the so-called music , or tuning up, as I call it, when the Reps are having a vote. Lets not be as you are, and just have one type of noise. Lets be fair and put on some band music, loving music, dance music or even just a bit of rock. Now, just for me a bit of Guy and Lawrence and then I would know how the vote came out.

Thank You,
