

I WATCH C SPAN BECAUSE:

C Span brings to the public an inside first-hand view of debates on national and international affairs. We see and hear the complex problems and many controversies, and how they affect our country, as well as the rest of the world. C Span gives balanced, responsible coverage on all subjects.

The debates give us a broader knowledge about many things that cannot be covered in full by the news media. We get all sides of a topic, not one isolated point taken out of context, and pounced upon by a biased news media.

In the committee debates, the public gets to really know the true side of the people who represent us in government. Regardless of what a person says when running in an election, put that person in debates on topics about which they feel strongly, the debates bring out their real feelings and ideas which they cannot hide from the viewing audience.

C Span, by being on the air at all times of the day, gives the working person a chance to be up on the important and latest news of the day.

The call in program gives first hand opinions and concerns of people from all parts of the country. We can get a better understanding of other peoples problems, and our own views are broadened in the process.

United States is not an island by itself. We, the people, must get a broader insight into the problems of the world, and how to exist with others. By debating problems, we learn about both sides of a subject. C Span brings the complete debates, not just a segment that is reported by biased news men. I feel that the only complete, true reporting comes from C Span. Keep up the excellent work!
