C Spaw:-

Do you know that I once thought that you were for the people of this nation? I have though seen things on your program that said you are liars.

Tell us why didn't your camera crew show Jerry Brown and Mr. Bush on that show of Pat Buchanan where he started to lick Mr. Bushes boots.

Why did Mr. Buchanan all of a sudden start talking about Jerry Brown and his America first and no fast track to Mexico? Has he been bought off? Or perhaps threatened. Has Mr. Jerry Brown been bought off too.

I think that who ever owns C-Spaw must also be a part of this so called Free Trade world that is out to destroy the

United States for there stupid One  
power world.

How do your international movies  
fly? Tellyou something I dont watch  
them. To me this is just another  
ruse to get peoples minds off of  
what is going on in this nation.

Thank you
