I watch C-Span Affairs Network on Cable TV because =

First, I have to say that with all the strange and sometimes absurd things, actions and reactions going on in Washington becomes an embarrassment to the American people.

Nevertheless, C-Span often informs, clarifies things before and after the facts. This is good and often essential -

What better way to keep informed and enlightened on current issues? What an opportunity to keep abreast on these things if we are to be able to judge intelligently the issues of the day.

I don't know how I could have done this without C-Span during the long period of

2 eye surgery I underwent last fall.

C-span gives the opportunity to observe those who contribute in an effective way to that -

In this dangerous world priorities have had to change with the problems. We must find a way to solve them peacefully. It has become paramount to avoid war. Now a war becomes unthinkable. There could be no victor; only world wide destruction -

If we do not know we are threatened we become helpless and fear of the unknown causes us to do foolish things.

C-span can keep us aware to try to avoid war and to work to keep peace -

Acting wisely both in foreign and domestic policy is essential.

3. How many people know that the U.S. has invaded the small countries of Central America as many as three hundred times in the past? I heard a person whom I considered very knowledgeable say that the US had never invaded another country and that all our wars were in self defence.

How much does the average person know about the World Court and international law? What is to be done about the budget and health care? What about our indifference to many things vital to our survival? What about the Constitutional Convention now being debated? If you one want to know these things' and C-Span is my best

4 and most dependable
source for this in-
tellegence-political debates were
so interesting!
Thank you -
