

ADDITIONAL COMMENTS:

TO BRIAN LAMB:

MY WIFE, [REDACTED] AND I ARE C-SPAN JUNKIES. WE TRY NEVER TO MISS BOOK-NOTES. STILL, WE MAY HAVE MISSED THE FOLLOWING BOOKS WHICH WE STRONGLY RECOMMEND:

TELLER'S WAR BY WILLIAM J. BROAD

AS YOU PROBABLY KNOW, MR. BROAD IS THE DISTINGUISHED SCIENCE REPORTER FOR "THE NEW YORK TIMES". HE IS ONE OF THE LEADING EXPERTS IN THE NATION ON SDI. IN THIS BOOK, HE COVERS THE VERY ALARMING BUT FASCINATING STORY ABOUT HOW DR. TELLER MISLED LEADERS IN THE REAGAN ADMINISTRATION, INCLUDING THE PRESIDENT HIMSELF, BY ENORMOUSLY EXAGGERATING THE PROGRESS BEING MADE IN X-RAY LASER RESEARCH.

THE WIZARDS OF ARMAGEDDON BY FRED KAPLIN

THIS EXCELLENT BOOK WAS FIRST

2

PUBLISHED BY BY SIMON ESTHUSTER
IN 1983 AND REISSUED BY STANFORD
UNIVERSITY PRESS IN 1991 AS PART
OF THE "STANFORD NUCLEAR
AGE SERIES." ALL OF THE BOOK,
EXCEPT FOR THE FOREWORD, WAS
WRITTEN BEFORE PRESIDENT REAGAN
LAUNCHED SDI. THE BOOK IS EX-
TREMELY USEFUL IN THAT IT
DESCRIBES THE ANALYSIS WHICH
RESULTED, ULTIMATELY, IN SDI.

ADDITIONAL REASONS FOR OUR RE-
COMMENDATIONS ARE CONTAINED
IN THE ATTACHED MEMORANDUM.
WE HOPE C-SPAN WILL SCHEDULE
MANY PROGRAMS ON THIS SUBJECT.

YOU DON'T FIT OUR STEREO TYPE OF
A CHAIRMAN AND CEO. PLEASE
CONSIDER THIS A COMPLIMENT.

SINCERELY,

[REDACTED]
