MOM'S APPLE PIE REMEDY

The sad outrage of impeachment "99" is that the HOUSE managers now need witnesses to prove their Articles Of Impeachment vote. This second BITE at the JUSTICE APPLE with it's baby-like claim is contrary to the fundamental rule of law toward the prosecutor's obligation of believing in a conviction outcome.

Has the SENATE left themselves open to become the historical PATSY for a partisan and semi-~~in~~competent HOUSE? Will the witness issue implode due to, "master pressure"?

The patriotic and legal "poetic justice remedy" should be as follows:

- A. The Senate REFERS BACK said case to the House to DEVELOP — with witnesses on their time and political expense to HANG the President or, ... hang themselves.
- B. The Constitution's primary component was AGREEMENT not outrageous partisan consensus and second bite games.
- C. Patriotic justice calls for a signed agreement whereby the House and Senate grants statutory amnesty to W. J. Clinton from all impeachment charges of record. President Clinton then agrees to forego his pension and right to a public library. The healing, punishment, forgiveness process of Judeo-Christian ethics then allows for a 2000 A.D. side bar REFERENDUM VOTE (General Election Form) after review by an impartial board, that will endorse a library but not the pension. (See details) HYPOCRISY is then nullified as the LEGACY.

THE BALANCED REMEDY

MOM'S APPLE PIE

Senator John McCain
U.S. Senate
Washington, DC

January 7, 1999

Dear Honorable Sir, et al:

██████████ would like to fill in your name after paragraph three on page 15 of "Mr. & Mrs. Democracy's Urgent Message" to American patriots and unwise greed merchants.

He's rather confident you and your staff would be wisdom editors for his completed manuscript.

Will HISTORY record the 1999 SENATE and chief justice were foolish PATSIES for a semi-incompetent and partisan driven HOUSE?? ██████████ poetic justice "impeachment remedy" will deliver fairness and HONOR to the SENATE with it's legal REFERRAL back to the House to DEVELOP a complete record worthy for all citizens with love or hate, trust or distrust of government.

HISTORICAL NOTE

July 4, 2009

FLASH

The 1999 U.S. Senate wisely referred the hasty and partisan impeachment record back to the House. Said decision mandating the House "DEVELOP" it's case with witnesses and videotapes eliminated the Senate's bravery-stupidity equation thereby affording the House and President ample rope for self satisfaction and self HANGING. The U.S. Senate precluded any runaway trial train within their chamber and used their Constitutional authority devoid APPELLATE review, ... with vision and an honorable legacy.

Wisely anticipating "Mom's Apple Pie" patriotic nourishment and "Articles of Agreement" and "Process Steps" as depicted in the TEMPTATION^{RX} book, the SENATE hushed the rhetoric of darkness evidence and illuminated the spirit of 1776 and allowed a Judeo-Christian ethic to triumph over HYPOCRISY.

Implementation of the "Articles of Agreement" by a motion from Senator John McCain (elected as President 2000) after the Senate Honor was about to implode, a recession on the horizon due to the FLAGLESS GREED SYNDROME and COSMETIC BULL RUN of the 90's proved to be the nucleus of patriotic vision and RESOLUTION of the impeachment issue.
