Dear Sir/Madam

I'm an African from the West African State of Ghana which was formally called The Gold Coast. I am now ~~lax~~ living in a small town in Holland since May this year. I am 41 years old.

I am a follower of American politics since the time of the Late President John F. Kennedy when I was in the Army because I love the Great Nation of AMERICA which I am sorry I was not born American. I'm sorry also my great great grandfather was not taken there as a slave.

Because there is no democracy in my country. I am an "African Democrat".

After watching both my party the Democrats and the Republicans I am coming out with this my views. In fact after F. Kennedy, President RAGAN is the greatest President I have ever seen in my life time.

He suits a GREAT Nation like America. Because during President Carters days the STARS and STRIVES was disgraced all over the world especially the Muslim world. I feel much sad to see an American flag being burnt. Now in Africa our "Superman" Col. Ghadafi is selince. ~~Irak~~ IRAN IRAC war is now over because of ^{pressur} ~~peer~~ of the U.S. To come to an end I want to see peace and demogracy in the whole world. And if Vice President George Bush will support the Regan era whom he himself is a partner then I am appealing to American people to Vote for the REPUBLICANS. Because they have the medicine for the U.S.

I would have called during the conventions but I have no telephone. My quation~~s~~ is how can I immigrate^{to} the U.S.?

Finahy kindly send me CONVENTION WISDOM and the Badge. Thank you and God bless you.

Sincerely Yours
